CAMELLIAS

We extend to you a cordial invitation to visit the nursery during the blooming season and welcome any inquiries you may have concerning your camellia problems.

Our stock is all first class, lath house container grown and is in fine, healthy growing condition. Plants may be bought and shipped at any time of the year. With every purchase of a plant we include a copy of our new booklet on the history, culture and care of camellias which deals with the practical knowledge of growing camellias under garden conditions. This booklet sells for twenty-five cents a copy when purchased alone or through the mail, but is free with purchase of a plant.
